Ignite innovation with Alchimica, your trusted partner for custom synthesis solutions. With our expertise spanning diverse sectors like pharmaceuticals, nutraceuticals, agrochemicals, and specialty polymers, we fuel breakthroughs and drive success. We specialize in synthesizing API impurities, advanced intermediates, fine chemicals, and more. Our proficiency in complex reaction matrices allows us to tackle intricate synthesis challenges efficiently.

We partner with our clients, offering support from concept to commercialization while ensuring IP protection & confidentiality. Our commitment to timely delivery, regulatory adherence, and superior logistical support sets us apart. From lab to commercial scale, we handle all quantities, reflecting our adaptability in our client success stories. At Alchimica, we're dedicated to providing the ingredients you need for successful product development, no matter the synthesis complexity.

OUR SYNTHESIS RANGE

ASYMMETRIC SYNTHESSES • GRIGNARD REACTIONS • HYDROGENATION • LITHIATION
SWERN OXIDATION • CHIRAL RESOLUTIONS & RACEMIZATION • CRYOGENICS
COUPLING REACTIONS • ENZYMATIC REACTIONS • FERMENTATION • FLUORINATION
BORONICS • HETEROCYCLICS & FUSED HETEROCYCLICS • PHOSGENATION
SILANES – SYNTHESIS AND CONTROLLED POLYMERIZATION

From concept to completion: OUR SYNTHESIS EXPERTISE

- **Conceptualization and Development:**
Designing and planning chemical compound structures.
- **Lab-scale Synthesis:**
Employing nanosynthesis, RoS Scouting and proof of concept.
- **Pilot-scale Production:**
Expanding operations with reactor capacity range of 0.1m³ to 5.0m³.
- **Commercial Production:**
Offering commercial supplies with complete technical documentation.

INDIS Group is an international alliance of synergistic companies united by a shared vision, collaborating to deliver unparalleled global solutions tailored to meet the unique needs of customers in diverse markets.

ALCHIMICA, a premier European distributor, delivers a reliable supply of high-quality fine chemicals and nutraceuticals for pharma, food, sports nutrition, cosmetics, and animal feed. With 25+ years of experience, we have a proven track record of successful partnerships with global companies, institutions, and laboratories.

REAGENTIA, a member of the Alchimica Family, is a trusted partner for laboratories, universities, and research facilities. With an extensive online store, it offers a vast selection of high-quality chemicals, materials, and equipment for scientific endeavors. Experience superior service and reliability setting us apart from the rest.
