## INDUSTRIAL AND FINE CHEMICALS

CATALYST PRODUCTION

PHARMACEUTICAL MANUFACTURING

GLASS AND CERAMICS PRODUCTION

CHEMICALS FOR ELECTRONICS INDUSTRY

CHEMICAL PRODUCTION

FOLIAR FERTILIZERS

**YOUR SUPPLIER WITH  
WAREHOUSES  
IN THE CENTRE OF EUROPE**

Czech Republic

**A**s the premier European supplier of both industrial and fine chemicals, we take pride in serving a wide range of sectors, including foliar fertilizers, glass, ceramics and catalyst production, chemicals for electronics industry as well as pharmaceuticals and chemical manufacturing. Discover our extensive selection of chemicals, tailored for a wide range of industrial needs. We warmly welcome inquiries for any substances you require, providing customized solutions to meet your unique chemical demands.

Our high-quality chemicals are sourced from an impressive network of global producers, ensuring that you receive only the best. But our commitment to your success doesn't stop there. We go above and beyond to source even the most unusual substances, giving you the competitive edge in your unique applications. With us, you'll experience the difference of a true industry partner.

## **Breaking boundaries in chemical sourcing: WE DELIVER WHAT OTHERS CAN'T**

Unlock the power of our truly wide range of fine chemicals. Our expertise and extensive network secure what others can't, propelling your success. Partner with us for a carefully selected spectrum of chemical substances, empowering your projects and opening doors to endless possibilities.

INDIS Group is an international alliance of synergistic companies united by a shared vision, collaborating to deliver unparalleled global solutions tailored to meet the unique needs of customers in diverse markets.

**ALCHIMICA**, a premier European distributor, delivers a reliable supply of high-quality fine chemicals and nutraceuticals for pharma, food, sports nutrition, cosmetics, and animal feed. With 25+ years of experience, we have a proven track record of successful partnerships with global companies, institutions, and laboratories.

**REAGENTIA**, a member of the Alchimica Family, is a trusted partner for labs, universities, and research facilities. With an extensive online store at [www.reagentia.eu](http://www.reagentia.eu), it offers a vast selection of high-quality chemicals, and materials for scientific endeavors. Experience superior service and reliability setting us apart from the rest.

## INDUSTRIAL CHEMICALS

---

- Acetates
- Aluminium nitrate
- Aluminium phosphate
- Aluminium sulfate
- Ammonium acetate
- Ammonium bifluoride
- Ammonium dimolybdate
- Ammonium heptamolybdate
- Ammonium iron citrate
- Ammonium meta tungstate
- Ammonium persulfate
- Ammonium tetrafluoroborate
- Ammonium tetramolybdate
- Ammonium thiosulfate solution
- Antimony trioxide
- Barium carbonate
- Barium selenite
- Bismuth oxide
- Calcium acetate
- Calcium nitrate
- Cobalt hydroxide
- Cobalt nitrate
- Cobalt oxide
- Denatonium benzoate
- Dicyandiamide
- EDTA
- EDTA salts
- Foliar fertilizers raw materials
- Hydroxylamin sulfate
- Hydroxylamine HCl
- Hypophosphorous acid
- Chelates
- Chromium acetate
- Chromium nitrate
- Iodine
- Iodine compounds
- Iron nitrate
- Lead nitrate
- Lignosulfonate complex
- Lithium carbonate
- Lithium hydroxide
- Lithium chloride
- Magnesium acetate
- Magnesium silicate
- Manganese acetate
- Manganese carbonate
- Manganese chloride
- Manganese nitrate soln.

- Manganese sulfate
- Methanesulfonic acid
- Molybdenum trioxide
- Monochloroacetic acid
- Nickel sulfate
- Nitrates
- Phosphorus pentoxide
- Plant growth regulators
- Potassium acetate
- Potassium chromium sulfate
- Potassium nitrophenolates
- Potassium persulfate
- Potassium tetrafluoroborate
- p-Toluenesulfonic acid
- PVP different grades
- Rare Earths
- Salicylic acid
- Selenium(IV) oxide
- Sodium selenate
- Sodium acetate trihydrate
- Sodium bromide
- Sodium fluoride
- Sodium hexafluorosilicate
- Sodium hypophosphite
- Sodium molybdate
- Sodium nitrophenolates
- Sodium oxalate
- Sodium percarbonate
- Sodium persulfate
- Sodium selenite
- Sodium tetrafluoroborate
- Strontium hydroxide
- Strontium nitrate
- Thiourea dioxide
- Tin(II) oxide
- Tin(IV) oxide
- Trichloroacetic acid
- Zinc acetate
- Zinc bromide
- Zinc nitrate
- Zinc selenite
- Zinc sulfate heptahydrate
- Zinc sulfate monohydrate
- Zirconium carbonate

## FINE CHEMICALS

---

Experience a wealth of possibilities at [www.alchimica.cz](http://www.alchimica.cz), where you can uncover an extensive array of pharmaceutical intermediates, high purity chemicals for electronics industry, rare earth metals or agrochemicals, and much more.
